This letter informs you that the IRB reviewed your protocol (or your documentation submitted in response to a previously issued CONTINGENT APPROVAL letter) observing procedures described at 45 CFR 46.109(e) and (f) as well as 46.110(2). The Committee's decision is shown below, along with any additional information required.			
X	CERTIFICATION AND APPROVAL	This decision status indicates that at this time, the above-referenced protocol has received an unconditional APPROVAL and you may begin work immediately. You should retain this copy with your file of protocol materials.	
All provisions of the 2018 Revision and the January 21, 2019 Finalization of the Common Rule are in force. In accordance with 46.109 (e) and (f)(1)(i)(ii), your protocol does not require annual renewal but will expire in five (5) years at which time you must submit an application for a new protocol if you wish to continue the research You are required to submit Form 603 entitled "Annual Confirmation of Active Status" for as long as you wish to keep the protocol active. If you do not submit Form 603 annually your protocol will be administratively retired. You are also required to submit notification of revisions to your existing protocol such as modifications to research materials; the addition of non-SIT sites or any other changes from the originally reviewed and approved protocol and associated materials. Use Form 614 "Revision for Previously Approved Projects" on the OSP Webpages. Once an EXEMPT protocol is reviewed and certified by the IRB, the Investigator is responsible for ensuring all personnel maintain their CITI training in a current status and those changes are no longer required to be reported to the IRB. However, you are required to list all personnel by name on Form 603, which is submitted annually.
